During my academic journey, I passionately pursued numerous personal projects, each contributing significantly to my growth as a React developer. With each project, I embraced new challenges, deepened my understanding, and honed my skills. This iterative process of learning and hands-on experience not only expanded my technical expertise but also instilled in me a deep sense of problem-solving and innovation. As I navigated through these projects, I evolved into a proficient React developer, equipped with a comprehensive skill set and a knack for delivering impactful solutions.

## Experience

### Digital institute- Teaching Assistant

- *As a Teacher's Assistant at a digital institute, I guided novice developers through assignments, ensuring their understanding and providing constructive feedback. I fostered a supportive learning environment tailored to individual needs, witnessing firsthand the transformative impact of mentorship on students' growth and confidence in mastering new skills. As a result of my dedication and support, many of the students I worked with not only excelled in their coursework but also developed a genuine passion for coding and technology, setting them on a path toward future success in the digital realm.*
